Important Notice:

Do not drop the entire meter in the water of dip beyond the maximum 2 inches level. This product is no waterproof. The meter is not meant to be used in hot water.

CityFarmer

Operating Instruction

1. Remove the protective cap.
2. Press the ON/OFF button to turn on the meter.
3. It will show 000 ppm for TDS/EC testing mode.
4. Immerse the tester into the water no more than 2 inches.
5. Wait for the display to stabilize. The meter automatically compensates for temperatures variation. Once the reading stabilized (10-30 seconds), press the HOLD button to hold the reading and take out the meter.
6. Press the TEMP button to enter temperature testing mode. Press TEMP to switch to °F for Fahrenheit or °C Celsius temperature testing.
7. Press the ON/OFF button again to turn off the meter, or the meter will automatically turn off after 10 minutes idle time.
8. After testing, shake off the water from your meter or clean it out with tissues.

Note: If the reading display a flashing X10 icon, multiply the reading by 10.
